## 8. QUALITY OF LIFE

### 8.1 Housing Characteristics

Huron East is more affordable, when it comes to housing costs, relative to Ontario. That is, median dwelling values in Huron East are \$390,405 compared to \$475,166 in Ontario. Further, monthly shelter costs for both owned and rented dwellings are cheaper both on average and at the median, compared to Ontario housing units. Finally, Huron East households are more likely to spend under 30% of their total income on housing, a traditional measure of household affordability. This suggests that housing relative to wages is more palatable in Huron East compared to Ontario.
