

MUNICIPALITY OF HURON EAST

Guideline: REQUIREMENTS FOR MANURE TANK PERMITS

To obtain a building permit to construct a **manure storage facility** within Huron East, you are required to provide the following documentation and information at the time of the application.

- 1) a completed Building Permit Application Form.
- 2) a completed Designer Information Form.
- 3) the building permit fee.
- 4) a site plan showing the following:
 - a) size of lot including tillable acres
 - b) lot and concession as well as 911 # and road name
 - c) location and size of all buildings and structures located on the lot as well as proposed for the lot
 - d) location, size and use of all neighboring buildings and structures within 2500 ft
 - e) location of all wells and water courses within 1000 feet
 - f) any existing or proposed driveways
 - g) location of all field tiles within 50 feet of the proposed location.
- 5) a soils report by a professional engineer is required for the proposed location and must show the elevation of the tank in conjunction with the water table.
- 6) Engineer's sealed plans for the structure.
- 7) a signed copy of the "Letter of Undertaking" and "General Review Commitment" from the project engineer.
- 8) a copy of the Letters of Approval for the Nutrient Management Strategy (NMS) / Nutrient Management Plan (NMP) from the appropriate authority.

If you need any assistance in understanding these requirements, please contact the municipal building department at 519-527-1710 at your convenience. We will be pleased to help you.
